

The only technology to work on both **Surface & Airborne** contaminants.

DESTROYS
99.9%

Protect your employees' health

A significant workplace challenge is employee illness. OHAir® technology creates a constant flow of atmospheric hydroxyls that destroys 99.999% of flu-causing organisms in any office environment. OHAir® technology can significantly reduce airborne infection rates that may cause illnesses, absenteeism, and in turn, loss of productivity.

Having a clean office...

is not the same as having a healthy office.

The sun's ultra-violet rays naturally create atmospheric hydroxyls. OHAir® technology provides a constant stream of atmospheric hydroxyls that destroy contaminants on both surfaces and in the air. Healthy spaces make for more productive workplaces.

OHAir® devices utilize the Odorox® technology.

Destroys Odours, Bacteria, Virus and Mould The Odorox® technology kills bacteria, virus and mould (fungi) on surfaces as verified by ATS Labs and in air as verified by Aerosol Research and Engineering (ARE) laboratories, which both did studies on a range of clinically and commercially relevant microorganisms.

Produces Atmospheric Hydroxyls Creates a continuous stream of hydroxyls to effectively destroy most chemicals as validated by the premier US atmospheric research facility - Lovelace Respiratory Research Center.

Indoor Air Pollution Odorox® technology reduces pollutants in indoor air as verified by Columbia Analytical Services.

Safety Comparative Biosciences Inc., a leading toxicology research center, conducted an FDA compliant animal toxicology study that showed no adverse effects with continuous 24/7 produced atmospheric hydroxyls.

Model	<i>MySpace - OHAir® MySpace is a portable system designed to work in home, office and automotive applications.</i>
Dimensions	13" (l) x 4.3" (w) x 11.4" (h) 330 (l) x 110 (w) x 290 (h) [mm]
Weight	8.4 lbs / 3.8 kgs
AC	110-240v 50-60Hz
DC	12-24v
Max Power	45w
Colors	White, Black, Red & Blue
Room Size	600-800 sq ft / 55-75 m ² <i>(depending on use and conditions of the room)</i>
Noise Level	36-45dba @ 1m
Certifications	CE, FCC, C-Tick, CQC

Ensure your office remains healthy for your employees and customers.

Model	<i>Architect - OHAir® Architect is a flexible system designed to work in home, office and automotive applications. It can be surface or flush mounted and the front changed to match your decor.</i>
Dimensions	18" (l) x 2.5" (w) x 18" (h) 450 (l) x 65 (w) x 450 (h) [mm]
Weight	13 lbs / 6 kgs
AC	110-240v 50-60Hz
DC	12-24v
Max Power	45w
Colors	White or design your own cover
Room Size	600-800 sq ft / 55-75 m ² <i>(depending on use and conditions of the room)</i>
Noise Level	36-48dba @ 1m
Certifications	CE, FCC, C-Tick, CQC
